NO考ゲーム™

NO-BRAINER GAME FOR ALL.

Theatre Style Cabinet With Large Screen !

Lively images just in front of players. Crisp picture from the projector trembles the audience.

Astonishing Sound From Woofer!

The surround sound system, coupled with heavy bass woofer speaker, vibrate the whole cabinet that gives the theater effect!

Multi Function Gun Controller!

The controller works as a flash light in the dark and a handgun during the battle. Unlimited bullets, no reloading necessary and installed with vibration mechanism on the gun, the players can shoot their stress away!

Various Genre In A Museum Setting !

The immense museum offers scenes from ancient era to space age, providing vast selections.

The game has stage selection system and the players can choose the scenes never visited.

Replay and continue functions always offer new scenes and surprises!

Future Upgrade Kit Is In The Works !

Upgrading to a new title is very easy. All it needs to be changed are a hard disk and some curtains. New versions and new titles can be expected in the years to come!
